

Baseline Equipment Company makes every effort to be your first choice when you have supply needs. As we grow we want to be the company you come to not only for our lowest priced items but we want to assist you with all of your needs. That is why we will beat any lower advertised price we can. The only thing we ask is that you ask us to compete on an identical item; including package deals and partial items. We will also need a copy of the competing advertised price. Please email it to [sales@baselineequipment.com](mailto:sales@baselineequipment.com) or to your personal sales consultant; discontinued, used or defective items do not apply.

Thank you for doing business with the Baseline Equipment Company family.

James Flack  
President & CEO
