## A Full Line of Poly, Garden & Professional Sprayers

### PUMP MAINTENANCE

After use or before storage, pump clean water through pump to clean out dirt, leaves, etc.

A drop or two of oil or grease at gland nut #175949 eases operation. Check nozzle for dirt. Check clamps on hose. Check for wear on hose.

### TANK MAINTENANCE

After use or before storage, rinse tank with clean water. Check tank vent for clear opening.

Check straps for fraying or bent snap hooks. Clean leaves and debris from built-in strainer at lower inside.

**We will not be responsible for merchandise returned to us without our previous approval.  
Claims for damage should not be filed with us, but should be filed with your local carrier's agent.**

### LIMITED WARRANTY

**D.B. SMITH & COMPANY, INC., 23 Garden St., New York Mills, New York 13417**

We warrant that each product sold by us will be free from defects in material and workmanship for a period of one year from date of shipment by us. We make no other express warranties, and all implied warranties, including fitness and merchantability, are limited to one year from date of shipment by us. Within the warranty period, we will repair or replace any part found to be defective upon our examination but will not pay shipping costs or other expenses. To obtain warranty service, write us at D.B. Smith & Company, Inc. 23 Garden St., New York Mills, NY 13417, or call prepaid, Area Code 315/736-0037. Merchandise may not be returned without permission and must be returned to us with freight prepaid. This warranty service is an exclusive remedy and we are not responsible for any consequential or incidental damages or injury to person

or property. This warranty shall not apply to any product which has been subject to misuse, negligence or accident, or been damaged in shipment, or misapplies, or which has been modified or repaired by unauthorized persons. This warranty only applies to products owned by persons purchasing directly from us or from our approved distributors and merchandisers. The right is reserved to incorporate subsequent design or parts changes after publication and without re-issue or descriptive literature or catalogs.

Note: Limitations on duration of implied warranty and/or consequent damages may not apply to you if your state does not permit them. This warranty gives you specific legal rights in addition to rights which you may have under state law.

## FIRE PUMPS

### Model 90G and 90S Indian Pumps

- Available in stainless and galvanized steel with a 5 US Gallon capacity.
- Kidney shaped tank with baffle and contoured back support for greater comfort and balance.
- Bottom discharge tank, uses a reinforced brass outlet for greater strength.
- Filter screen located inside tank at outlet prevents clogging from leaves or other debris.
- Tank cap is ventilated and uses a cam lock design with a watertight gasket for positive closure.
- Large 4" filler opening for easy filling and cleanout.
- Removable 1.75" heavy duty polypropylene shoulder straps have a sliding clip on strap that allows pump to be secured leaving hands free.
- Carrying handle located at top of tank has clips for storing pump.
- Slide pump fabricated from (2) seamless brass cylinders. A guide bushing on the inner cylinder allows for bind free operation.
- Combination nozzle allows for operator to change from a straight stream to a cone spray quickly and easily without any special tools.
- Nozzle secures to pump with beaded chain.
- Pump can be disassembled by hand for complete in field maintenance.

## FIRE PUMPS

### FEDCO 500 FSV Fedco Collapsible "Smokechaser"

- Bag is constructed of a strong polyester fabric encased in vinyl for superior durability.
- Seams are electronically sealed and reinforced at all stress points.
- Vinyl gives maximum resistance to weather, acid, alkalis, and water.
- Pump is completely rust proof and provides a positive shutoff at any position with no drippoff or waste of water.
- Combination nozzle allows for operator to change from a straight stream to a cone spray quickly and easily without any special tools.
- Pump is unaffected by non-use or long periods of storage.
- Pump has been tested 50,000 strokes at 4 psi without any loss of pump efficiency.
- Military spec shoulder straps and carry handle will not rot, mildew or twist while in service.
- Shoulder strap is equipped with clip to hold pump, freeing up hands.
- Oil proof 48" long hose is equipped with a rust proof, ball bearing, quick connect type connector.
- Approved by US Forestry Service.
