

Gas Clip Technologies is committed to providing the highest quality gas detectors and accessories coupled with superior service and support. We continuously monitor product performance and periodically find it necessary to enhance or improve our products with firmware updates.

Please be advised that several such updates affecting the MGC-Simple and MGC-Simple Plus models have been released in the past few months. The latest version of firmware for the MGC-Simple and MGC-Simple Plus monitors is 1.1.24. To ensure the most efficient performance and function of your Gas Clip Technologies detectors, please refer to <https://www.gascliptech.com/resources.php> to download the latest firmware and update your monitors as needed. If you need any additional information or assistance with your firmware updates, please do not hesitate to contact our service at 877-844-3101

Thank you,

Baseline Equipment Company
