

HexArmor® Ceros™ Earmuffs

When it gets loud on the job, trust HexArmor® earmuffs to dampen the noise and comfortably protect your hearing.

Every detail of the new Ceros™ safety helmet system has been thoughtfully designed to deliver an advanced head protection solution. This includes a Click-and-Go™ magnetic system or mechanical system for HexArmor® earmuffs that make it simple to attach. Convenience is key – your safety helmet doesn't need to be removed when attaching or removing the earmuffs.

HexArmor® earmuffs are:

- Easily attachable to HexArmor® safety helmets via Click-and-Go™ magnetic or mechanical face shield system, or slot adapted directly to helmet when only hearing protection is required
- Snug-fitting for comfort and protection
- Available in two options for varying decibel levels of noise reduction and color-coded for easy identification
- Lightweight with length adjustment options for various head shapes
- Soft ear cushions that adapt to the surface and head shape to ensure total wearer comfort
- Designed with 360-degree rotation resting options when nesting against HexArmor® safety helmets
- Compatible with HexArmor® face shields
- Certified in accordance with ANSI S3.19-1974, EN352-3, and CSA Z94.2-2014

Protective devices do not provide unlimited protection. Some operations may require machine guards, face shields, special filter lenses, or other safety equipment. Safety helmets do not provide complete protection against hazards, and should only be used in conjunction with the prescribed safety equipment for the application as well as defined safety practices.
