

FEATURES & BENEFITS

- ▶ Developed in conjunction with surveyors from the California Department of Transportation to improve safety without sacrificing functionality
- ▶ ANSI/ISEA Class 2 compliant
- ▶ Longer visibility range than standard reflective safety vest
- ▶ Enhanced visibility without the need for incident / external light source
- ▶ Fully certified ANSI / REACH / RoHS compliant
- ▶ 100% visibility – 360 degrees

THE ACTIVE ILLUMINATION

- ▶ Flexible light and homogenous illumination
- ▶ Suitable for washing and drying*
- ▶ 8 hours in continuous mode, over 24 hours in soft pulse mode
- ▶ Low 5-volt voltage to ensure safety in wet working conditions
- ▶ 2 modes, soft pulse and continuous

*LED system and Vest only, battery must be removed prior to washing.

Safety Lighted Utility Vest 8265-LED-Series

Continuous lighting and soft-pulse lighting features minimize injury risk by making workers visible in dark or poorly lit environments

THE VEST

- ▶ Made from durable ANSI/ISEA compliant polyester and polyester mesh
- ▶ Features include YKK zippers, 4-inch (10.16 cm) wide reflective tape with 2-inch (5.08 cm) wide silver stripes made with 3M Scotchlite Reflective Material
- ▶ Padded collar is made with Outlast® Adaptive Comfort® material
- ▶ CE Compliant
- ▶ Safe working in wet conditions
- ▶ Functional vest including many quality features (multiple pockets for cell phone, tapes, radio, pencils, maps, spray cans, inside pockets and mic clips)
- ▶ Soft reflective materials
- ▶ Polyester mesh with cooling properties for hot and humid conditions
- ▶ Available in Fluorescent Yellow or Fluorescent Orange
